

PRODUCT RANGE 2019-20

Profile

MRL Tyres Ltd. belongs to the Malhotra Group of Industries founded by Late Shri C.L Malhotra in 1954 which today indulge in manufacturing of Tyres & Tubes besides other businesses like Tyre, Rubber & Retreading Business, Real Estate & Financing.

Today, MRL Tyres Ltd., is recognized around the world for their quality and endurance at competitive prices and are already a popular brand choice across **90 Countries** through its three brands - Malhotra, Indus and MRL.

Since it's re-inception and acquisition by **Mr. Gopal Malhotra (Chairman and Managing Director)** in mid-2008, MRL Tyres have diversified and enhanced business to include an exhaustive range of tyres with **1700 SKU's in line** and today is an Approved Supplier to **Major Original Equipment Manufacturers (OEM's)**, in INDIA, Europe, Africa and USA.

MRL Tyres is also a proud receiver of "**Capexil EXPORT AWARD**" for EIGHTH consecutive year awarded by Export Council, Ministry of Commerce, India. With TWO state-of-art manufacturing facilities in Uttar Pradesh; the plants are fully equipped with most modern machinery, ranging from Automatic Compound Mixing to the World Class Curing Systems, to Fast and Efficient Tyre Building Machines, all capable of producing tyres as per Highest International Quality Standards.

TEAM:

At MRL, we are a team of Young, Dedicated & Motivated professionals who are passionate and committed to achieve better results by understanding and meeting customer's requirements. MRL team embodies the corporate values and share the passion for their work. All these elements together have made MRL a strong, future-oriented organization with extraordinary growth perspectives in its field of business.

WHAT QUALITY MEANS TO US:

MRL Brand: We combine this requirement with our pledge of quality to our customers and that is why right quality is achieved through stringent quality control measures carried out at every stage of activity from incoming Raw Materials to Finishing and Dispatch of Products. Besides In-House Testing, MRL Tyres regularly conducts tests under international regulations outside India as well, which reinforces the confidence R&D puts in each product.

USP

Our USP lies in Low-cost manufacturing with

- International Quality Standards &
- Using the latest technologies.

At MRL, we simply have only one motto - to help our Customers stay ahead!

Core Values

- Service, Quality & Customer Satisfaction
- On Time Delivery
- Passion for Excellence
- Nurture Talent, Competency & Willingness
- Respect & Humility

MOTTO:

At MRL, we simply have only one motto

- To help our Customers stay ahead!

JUN 2 2 2017

Dear Monit Malhotra:

This letter is in response to your recent request for assignment of a new tire manufacturer's identification code for the MRL Tyres, Ltd plant located in Greater Noida, India. Since MRL Tyres, Ltd is planning to export tires to the United States, we want to bring to your attention certain Federal laws and regulations, including the Federal Motor Vehicle Safety Standards (FMVSS), administered by the National Highway Traffic Safety Administration (NHTSA) under the National Traffic and Motor Vehicle Safety Act, as amended (Safety Act) that have bearing upon the importation of these tires.

It is a violation of Federal law to manufacture a tire for sale in the United States after the effective date of an applicable FMVSS unless the tire complies in all respects with that FMVSS. In the event that the tire is manufactured in a foreign country, the importer of the tire in the United States is considered a manufacturer under the law, and has all of the duties and obligations of the fabricating manufacturer relating to compliance with FMVSS and, as discussed below, reporting and recalls.

The United States uses a self-certification system in which the tire manufacturer is required to certify that each tire it manufactures complies with the applicable FMVSS. The symbol DOT molded into or onto a tire by its manufacturer is legal certification that the tire complies with all applicable FMVSS. A foreign tire manufacturer is prohibited from introducing or delivering for introduction into interstate commerce in the United States its new tires unless the manufacturer (or importer of record) has certified that the tires comply with all applicable FMVSS.

The self-certification process used in the United States substantially differs from the processes used in many other countries. For instance, China and some countries in Europe require manufacturers to deliver regulated items to a governmental entity for testing; after successful testing, the government approves those regulated items for use and assigns an approval code. Under the United States self-certification process, the tire manufacturer, not any governmental entity, has full legal responsibility to assure that the tires comply with the applicable FMVSS and are properly certified.

It is the responsibility of the tire manufacturer to establish design specifications, manufacturing process specifications, quality assurance programs and engineering change verification programs to such a level that all new tires shipped to the United States meet or exceed the minimum performance requirements of all applicable FMVSS and are properly certified.
